SKILLS AND QUALIFICATIONS

- Languages: Python, C++, C, Java, Lua
- Tools: Git, GitHub, Blender, Tinkercad
- Systems: Packet-based protocols, data serialization (NBT), client-server networking, embedded systems (ESP32)
- Game Development: Unreal Engine 5, raylib, game modding

PERSONAL PROJECTS

ERM (Developing) - Mafia-style multiplayer game **November 2024 - Present**

- Developing a 3-role multiplayer social-deduction game in Unreal Engine 5 on an authoritative dedicated server, with role assignment, round progression and replicated player interactions. Created all 3D models, animations and UI.

Helldivers 2 Stratagem Gadget (Developing) - Wrist-mounted input device **August 2026 - Present**

- Building custom swipe-gesture firmware on a ESP32-S3 development board with self-designed, 3D printed casing based on real input technology from the game.

Replicator Mod - Copy/paste tool mod for Minecraft **July 2026**

- Built a packet-based multiplayer copy/paste system with per-player clipboard state and undo support.

Boid Simulation - Realistic animal flocking simulation **July 2026**

- Programmed flocking/schooling behaviour in a 2D environment using the three boid rules (separation, alignment, and cohesion) from scratch, including custom weight-tuning.

WORK EXPERIENCE

Brick Works Academy - *Camp Counsellor* **July 2026 - August 2026**

- Led daily STEAM activities, teaching technical computer skills and foundational programming concepts through hands-on Minecraft-based coding and design challenges.
- Fostered a welcoming space where campers felt encouraged to experiment and problem-solve.

Haven's Creamery - *Event Server* **June 2025 - August 2025**

- Engaged with and served customers at busy ice cream events across the city.

Junior Achievement Summer Camp - *Camp Counsellor* **August 2025**

- Led workshops on budgeting, marketing, and business fundamentals for camper-run businesses.

EXTRACURRICULAR EXPERIENCES

Junior Achievement: ReSwipe - *Vice President of Marketing* **October 2025 - Present**

- Collaborated with a group of peers to create and run all aspects of a profitable business and won the Canadian Company of the Year Championship title.
- Led all company marketing, branding, events, and social media accounts, ending in winning VP of Marketing of the Year in Southwestern Ontario and the regional Social Media Challenge.

Oakridge STEAM IC Chapter - *Logistics Manager* **September 2025 - June 2026**

- Created forms and spreadsheets to organize member info and coordinated event planning and deadline communication for the team.

Oakbotics (Oakridge Robotics Team) - *Team Member* **September 2022 - June 2026**

- Co-wrote the autonomous and driver-controlled sections of the robot in Java alongside teammates, contributing to the team's qualification for the 2025 FIRST Championship in Houston.

EDUCATION

University of Waterloo - *Honours Software Engineering*

- Time attended: September 2026 - Present (Expected Graduation: June 2031)
- Received the W.J. Beynon Memorial Entrance Scholarship and the President's Scholarship of Distinction.
